

Reusable Support Communication Templates

The following templates represent reusable chat shortcuts created for high-frequency customer inquiries within a SaaS platform. These shortcuts were designed to:

- Standardize tone and messaging
- Reduce agent response time
- Maintain clarity across repetitive scenarios
- Allow personalization using dynamic fields

Templates were structured for quick copy-paste use within Kustomer and optimized for clarity, brevity, and user reassurance.

Template 1 – Subscription Renewal Inquiry

Hi {{FirstName}},

You can view your renewal date anytime under:

Account Settings → Membership → Billing Details

There you'll see your next charge date and payment method on file.

If you'd like to update your payment method or make any changes, just let me know and I'll walk you through it.

Best,
{{AgentName}}

Template 2 – Duplicate Charge Concern

Hi {{FirstName}},

Thanks for reaching out! I've taken a look at your account and see {{brief explanation of billing event}}.

Sometimes pending authorizations can appear as duplicate charges, but they typically drop off within 3 - 5 business days depending on your bank.

If you're still seeing the charge after that timeframe, let me know and I'll investigate further for you.

Best,
{{AgentName}}

Template 3 – Device Connection Reminder

Hi {{FirstName}},

It looks like your device may still be connected to another app. Please make sure any other fitness apps are fully closed before reconnecting.

Once everything else is disconnected, try pairing again and let me know what you see.

Happy to help further if needed!
